

4/30/2020

To our valued customers, partners, and friends,

Since our last communication on this subject it appears the market has bottomed out and we are beginning to see some signs of hope. Although the emerging upward trend is encouraging, we recognize that some of you may still be adjusting your operations, employees, customers, and, ultimately, your financial priorities to compensate. I

SPOT remains committed to helping you work through these challenges. We continue to be fully staffed to provide the additional training, webinars, and support you may need as you navigate the changing demands to your business.

As we've watched daily market results and observed some regional variations, it remains clear that every locale continues to experience hardship. With this in mind, we would like to offer another round of billing relief across all regions.

To assist you, **any stations not used in April will be available for your use free of charge in May as your business picks up.** No action is required on your part for this relief to take effect.

We will continue monitoring the return to the new normal. As we prepare for better business days ahead, we hope you and your families remain safe and healthy!

Stay well,

All of us at SPOT
