

Release Notes for 7.0.10042

App	Feature	Type	Comments	Settings/Required Changes
SPOT API	General	Addition to Existing Feature	<p>API/SPOT - Add setting to routes (and service plans) to allow static route customers make on-demand visits according to the days the route allows</p> <p>Added - New Route (Service Plan) setting "Allow On-Demand Requests for Static Customers" (route profile) - the API-based visit scheduler will present a static customer with on-demand options for days that customer is not normally visited.</p>	Store Settings > Route Settings > Route Profile > Allow On-Demand Requests for Static Customers
SPOT API	General	Fix	API - Fixed issue in route manifest recall (triggered by a very obscure set of conditions)	
SPOT API	General	Change	Added setting to Route & Service to support standby visit mode (enable / disable).	Store Settings > Route Settings > Route Profile > "Enable Standby Visit Requests" There is also a matching attribute on the Service Plan model. MDC to read this attribute and implement Alex's MDC standby changes if set in the request visits result set.
SPOT	Activity Log	Addition to Existing Feature	<p>As SPOT we would like an activity log entry for Menu > Conveyor > Prepay Kiosk Orders</p> <p>Added a Prepay Kiosk Order activity log event.</p>	
SPOT	Credit Cards	Change	U.K. PE Certification Script - run through completed	
SPOT	Markin	Fix	Fixed two possible errors when customer info slips are configured to print at detail.	
SPOT	Notification Center	Change	<p>As a SPOT user, I would like a Save button in the Notification Center that saves changes without closing the Notification Center itself</p> <p>A "Save" button has been added to the Notification Center, which saves changes without closing the window; the previous "Save" button is now labeled "Save & Close".</p>	
SPOT	Order View	Fix	Redo will now only void an empty original order if no payments have been made.	
SPOT	Pickup	Fix	Denmark-based users were seeing various errors due to currency formats with a comma in the decimal place	
SPOT	Printing	Fix	Fixed a bug that occasionally breaks up Code 128 barcodes into two pieces	
SPOT	Reports	Addition to Existing Feature	<p>As a SPOT user, I would like an additional column on the Route Trend report</p> <p>The Route Trend report now has a Type column indicating the route customer type: D = On-Demand, S = Scheduled.</p>	
SPOT	Reports	Fix	<p>As an assembly conveyor user I would like to see partially assembled orders grouped by store and route</p> <p>Added Partially Assembled Orders report to Reports Gallery > Conveyor. Unlike Conveyor Waiting Items, this is grouped by store, then by counter/route/hotel</p>	

SPOT	Reports	Change	<p><i>As a SPOT User I want to multi-select Hotels when running the Hotel Orders Due report</i></p> <p>Hotel Orders Due report can now be run for multiple hotels at once.</p>	
SPOT	Routes	Fix	<p>Fixed - Route Manifest - A visit request following a cancel request (but within the cancel interval) should be honored</p>	
SPOT	Routes	Addition to Existing Feature	<p><i>As a SPOT user, I would like route delivery tab to have indicators if 'Use Customer Specific Route Rules' is enabled and details about it</i></p> <p>The Delivery tab will now show the customer specific route rules visit days for a particular customer if customer specific route rules are enabled. The row will also be displayed in blue to alert the user.</p>
