Release Notes for 7.0.13167

App	Feature	Type	Comments	Settings/Required Changes
SPOT	Credit Cards	Fix	A negative cash credit balance was causing the CCOF to be overcharged on a subscription renewal	
SPOT	General	Change	The new "Content" column in the On My Way tab of the Notification Center will now first show any comments associated with the original notification, and only show a comment associated with a later SMS if there is not an original comment	
SPOT	Localities	Addition to Existing Feature	**Add Sweden as a Locality** Sweden has been added as a locality in SPOT	
SPOT	Reports	Fix	When a subscription auto-renews, the credit card was being charged in the customer's home store but the renewal merchandise invoice was being assigned the store where the subscription was first activated.	
OTS	General	Fix	OTS Bounce-back batches were excluding customers with distinct pickups on their initial visit spread over multiple days	
SPOT	AR	Fix	SPOT was crashing in the Apply Payments screen if the user tried to use the CCOF tender again after the CCOF had already been declined.	
SPOT	Credit Cards	Addition to Existing Feature	In the Credit Card Reconciliation screen, the user now has the ability to void/refund a credit card transaction that is only seen on the processor side.	
SPOT	General	Addition to Existing Feature	The subscription auto renewal service will now log credit card transaction data into the same CVLog tables that SPOT does.	
SPOT	Merchandise	Fix	Selling a subscription with a SKU also linked to a deleted subscription plan can result in the subscription not being activated	
SPOT	Printing	Fix	Hotel guest and room number data fields for "Hotel"-type customers were not showing on the first printing of a detail visit ticket.	
SPOT	Utilities	Fix	The subscription renewal service was not honoring the "Initial Invoice Number" setting if the service reset the counter at the beginning of the month
