

Release Notes for 7.0.13295

App	Feature	Type	Comments	Settings/Required Changes
SPOT	Coupons	Fix	A scenario existed in which a one-time customer award coupon could be applied to multiple visits	
SPOT	Reports	Addition to Existing Feature	ADDED - Incoming Summary by Referral to Sales section of Reports Gallery.	
SPOT	Reports	Change	The "On Demand Request Reconciliation" report now groups pickup requests separately from delivery requests, and sorts by stop number instead of customer name.	
SPOT	Reports	Fix	More recent subscription plans sold are now included in the Subscription Sales By Item report again.	
SPOT	Reports	Fix	More recent subscription plans sold are now included in the Merchandise Sales By Item report again.	
SPOT	Reports	Fix	More recent subscription plans sold are now included in the Merchandise Sales By SKU report again.	
SPOT	Reports	Fix	More recent subscription plans sold are now included in the Merchandise Sales By Clerk report again.	
SPOT	Reports	Fix	FIXED - The New Customers report is now compatible with Delivery Console.	
SPOT	Routes	Fix	FIXED - Customer locker PINs are showing on the route manifest even if they are configured as not being a locker customer.	
SPOT Scheduler	General	Fix	The @DELIVERYIMAGE email token in Order Delivered scheduled tasks was being replaced by a photo from the wrong delivery stop	
SPOT	Email	Fix	Locker email scheduled tasks were not populating the email subject line correctly	
SPOT	Email	Fix	Batch emails were not using the return email address defined with the selected email template	
SPOT	Reports	Fix	The "Tax Collected by Entity" report was sometimes showing incorrect tax totals for invoices that charged tax both for cleaning and for alterations.	
SPOT	Reports	New Feature	New Daily Production - Presser Summary report, which is a summary of the Daily Production - Presser Totals report.	
SPOT	Reports	Addition to Existing Feature	Subscription plans can now be flagged as "Display On Web", allowing them to be surfaced in CustomerConnect and MDC Mobile.	Company Settings > Subscription Settings > Subscription Plans > (Subscription Plan) > Display On Web

SPOT	SMS	Addition to Existing Feature	A @SLOTNUMBER token has been added for email/SMS templates that will strip off the leading "[conveyor number]:" text of the rack location.
