

Release Notes for Version 7.0.7982

App	Feature	Type	Comments	Settings/Required Changes
SPOT	Assisted Assembly	Fix	Tuned the functions behind "Remaining Pieces to be Assembled" in Assisted Assembly (both Alert & Search) for enhanced performance.	
SPOT	Configuration	Addition to Existing Feature	<i>As a SPOT support tech, I would like to export the 'Configuration Tracking' to a log file, so that it can be searched for suspected changes.</i> Configuration Tracking now has an Export button, which will export all events from the currently selected date range to a text file. Also added is a Filters button to narrow down the search by category (company, store, workstation, etc.)	
SPOT	Conveyor	Fix	Fixed a problem where Conveyor Operations > Activity would sometimes display incomplete location information.	
SPOT	Credit Cards	Fix	When processing batch A/R payments, the system will more reliably abort the process if a critical error is thrown (missing setting, for instance).	
SPOT	Credit Cards	Fix	Fixed - Post A/R to CCOF - card-data related errors should not halt a batch card process	
SPOT	Customer View	Change	<i>As a SPOT UK user, I would like to use a web service-based postal code lookup provider</i> SPOT now uses a third-party web service for UK postal code lookup/verification.	
SPOT	Customer View	Fix	Fixed password reset URL in emails generated from Customer View > Customer Connect > Send Password Reset Email	
SPOT	General	Fix	Fixed a problem where setting very large values in the Setting Max Occupancy Units per Slot setting caused the Visual Invoice to not display.	
SPOT	General	Addition to Existing Feature	<i>As a RouteTrac user, I would like to create an Order History entry when a route order is dropped off or picked up at a customer or locker.</i> The Order History screen now shows locker events created by new locker functionality.	Store Settings > Route Settings > Locker - Create Locker Events At Markin Store Settings > Route Settings > Locker - Locker Event Time Window
SPOT	Localities	Addition to Existing Feature	Denmark has been added as a locality in SPOT.	
SPOT	Localities	Addition to Existing Feature	Switzerland has been added as a locality in SPOT	
SPOT	Markin	Fix	Fixed a problem where having the Auto add HSL Item setting disabled caused HSL scans to be ignored.	
SPOT	Notification Center	Addition to Existing Feature	<i>As a SPOT locker user, I would like to see locker pickup requests appear in a separate tab in the Notification Center.</i> A "Locker Pickups" tab has been added to the Notification Center if new locker functionality is active.	
SPOT	Order View	Addition to Existing Feature	<i>As a SPOT user, I would like to be prompted to change the promise date after a split</i> Added "Prompt for Promised Date Change" setting to Split Reasons. If enabled, using the corresponding Split Reason will cause SPOT to prompt the user to select the promised date for the newly created invoice.	Company > Mark-in Settings > Split Reasons > (Reason) > Prompt for Promised Date Change > On/Off
SPOT	Other	Addition to Existing Feature	<i>As a SPOT user, I would like the shipping tool to have an invoice scan provision (and other changes)</i> The ability to quickly look up customers by scanning an invoice in the shipping screen is now available. Also, the prompt to print the label after shipment creation	

			has been removed, and detailed orders now show in the list of potential invoices to link to the shipment.	
SPOT	Other	Addition to Existing Feature	<p>As a SPOT user, I would like FedEx supported as a shipping provider</p> <p>Support for FedEx as a shipping provider has been added to SPOT. Also, support for third party billing has been added for all shipping providers.</p>	<p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper Name</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper Address Line 1</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper Address Line 2</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper City</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper State</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper Postal Code</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Shipper Phone</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Billing Option</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Default Value - Billed Third Party Account Number</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Billed Third Party Name</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Billed Third Party Address Line 1</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Billed Third Party Address Line 2</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Billed Third Party City</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Billed Third Party State</p> <p>Store Settings > Shipping Settings > Shipping Providers > (Shipping Provider) > Billed Third Party Postal Code</p>
SPOT	Other	Addition to Existing Feature	<p>As a SPOT user, I would like the shipping screen to send customer emails when a shipment request is accepted</p> <p>The ability to automatically send an email to the customer when a shipment is created has been added to SPOT.</p>	<p>Store Settings > Email Settings > Event - Shipment Created > Return Address</p> <p>Store Settings > Email Settings > Event - Shipment Created > Subject</p> <p>Store Settings > Email Settings > Event - Shipment Created > Message File (HTML)</p>

SPOT	Pickup	Fix	Fixed the "No, don't ask again" option of the Unclaimed Reward prompt.	
SPOT	Printing	Addition to Existing Feature	<i>As a SPOT user I would like to be able to print the invoice mode on quick invoice templates</i> InvoiceMode is now an available data field for Quick Invoice templates.	
SPOT	Routes	Fix	Fixed - Route Manifest Recon issue with orders missing if a recon session racked orders and had excluded orders	
SPOT	Setup	Fix	Fixed a bug with Store > Mark-in Settings > Holiday Schedule. It will now properly save the selected schedule.	
SPOT	Utilities	Fix	Fixed an error that could occur during merchandise import if an item name on the import exceeded the 80 character maximum.	
MDC Mobile\Intro and Welcome	General	Change	<i>As an MDC Mobile user, I would like the distance to store to be listed on a separate line to prevent scaling issue</i> Changed layout of store cell (distance moved to separate line)	
RouteTrac Client	General	Fix	Fixed - In certain API/RTM calls, settings failed to completely load under certain circumstances	
RouteTrac Client	General	Fix	Fixed the visibility of flashlight button on the scan screens	
RouteTrac Client	General	Fix	Delivering orders via RouteTrac was creating duplicate batch CC payments for orders with an existing declined payment	
SPOT API	General	Fix	Fixed - Customer configured as "Use Route Rules" AND 'Scheduled' pickup/delivery types are showing up as On-Demand in RouteTrac Mobile	
SPOT API	General	Fix	Fixed - Attempting to load a set of Visit Requests on stand-alone systems is generating a licensing error.	
SPOT Scheduler	General	Addition to Existing Feature	<i>As a SPOT user, I would like to send order ready notifications by specific route</i> Order Ready, Order Delivered, and Order Sold email and SMS scheduled task types can now be configured to be sent only to customers on specific routes for Route and Locker customer groups.
