

Release Notes for Version 7.0.8045

App	Feature	Type	Comments	Settings/Required Changes
SPOT	Credit Cards	Fix	Credit card payments that have been declined more than once are showing multiple times in the Payment Exceptions screen.	
SPOT	Credit Cards	Fix	Fixed a rare problem that could cause processing a credit card batch to hang.	
SPOT	Email	Addition to Existing Feature	<i>As a SPOT user, I would like the email open A/R invoices feature to provide an option to send the email to only the master email address</i> When emailing open A/R invoices from an A/R Sub SPOT will now ask whether to use the Sub account's or Master account's email address.	
SPOT	Markin	Fix	Fixed possible errors when changing an order's promised date while Store > Production Settings > Production Promised Date Tracks Promised Date is enabled.	
SPOT	Notification Center	Addition to Existing Feature	The Locker Pickups tab in Notification Center now handles bag scans from unidentified customers.	
SPOT	Order View	Addition to Existing Feature	<i>As a SPOT user, I would like to assign an invoice to a locker bank during Detail and in Order View</i> The ability to manually assign an invoice to a locker bank has been added to Order View in SPOT.	
SPOT	Printing	Addition to Existing Feature	<i>As a SPOT user, I would like the invoice/receipt template to include 'Total Savings'</i> Added DiscountCouponAdjustment to the available data nodes on Receipt templates. The value is the sum of discounts, coupons, and adjustments across all invoices covered by the receipt.	
SPOT	Reports	Fix	Fixed the Delivery Comparison Report as it was evaluating week 1 in a possibly much larger range than 1 week.	
SPOT	Search	Fix	Reverted changes meant to prevent certain customers from appearing twice in searches as those changes were causing some customers to not appear in searches at all.	
SPOT	Security	Fix	Fixed "Cashier > Use Credit Card Transactions View" activity right working in reverse; and added a message explaining what happened if the user doesn't have the right.	
SPOT	SMS	Fix	<i>As a SPOT user, I would like the SMS Notifier for Post-Process Interceptors to support special accent non-English characters</i> Fixed SPOT SMS service to handle characters from languages other than English more reliably.	
SPOT	SMS	Fix	Fixed an error in SMS - Validate Phone Numbers.	
Data Exports	General	Addition to Existing Feature	Data Export Service A can now use NodeKey instead of NodeNumber for the store number for each export record type	USENODEKEY special option in service settings

SPOT API	General	New Feature	<p>As a SPOT API user I need documentation</p> <p>Created a documented Postman collection for the SPOT API to serve as a future replacement for the current API documentation.</p>	
SPOT Scheduler	General	Addition to Existing Feature	<p>As SPOT, we would like 5 new locker events (for email and SMS)</p> <p>"Locker Bag Collected Email", "Locker Bag Collected SMS", "Locker Order Delivered Email", "Locker Order Delivered SMS", "Locker Order Moved Email", "Locker Order Moved SMS", "Locker Order Present Email", "Locker Order Present SMS", "Locker Order Returned Email", "Locker Order Returned SMS" have been added as task types in SPOT Scheduler Service. These task types can only be used in conjunction with the latest RouteTrac app.</p>	
SPOT Scheduler	General	Fix	<p>Order Ready email and SMS notifications were not showing all locker locations</p>
